National Science Day (NSD)

Science brings about solutions for everyday problems and provides answers to the greatest mysteries of the universe. Science is thus one of the most important channels of knowledge. It has a specific role, yet has various functions, for our society's benefit, i.e. improving knowledge and education, and enhancing the quality of life. A country can evolve thanks to scientists who find new approaches to problems and prove new scientific laws. In this regard, National Science Day is observed on 28th February each year in India, to honour the revered physicist Dr. Chandrasekhar Venkata Raman's contributions. National Science Day commemorates the discovery of the Raman Effect by Dr C.V. Raman, for which he won the Nobel Prize in Physics. Every year, on this particular day, the Government of India felicitates scientists from various fields for their valuable contribution to science. National Science Day's main objective is to increase awareness among people about the importance of science and technology in their lives.

Every year, National Science Day is celebrated with a concept or theme that focuses on the importance of science. National Science Day is celebrated in our institute on the theme of respective year. It is celebrated to give an opportunity to the scientific minded of the science students in our institution. To encourage the students of science and technology, every department of our college taking initiatives and organized various activities such as quiz competitions, science exhibitions, guest lectures, Model competitions, Poster competitions, Scientific Rangoli competitions etc.

All the staff members and the students are actively taking part in this celebration. For the successful organization of various activities our college constituted a separate NSD committee.

Covid-19 Vaccination Camp

The government instructed that colleges and universities should fix vaccination camps for students. Students should be fully vaccinated and asked to attend class as a priority. If students are not vaccinated, universities and colleges must take the initiative to set up vaccination camps for students in campus. To conduct the vaccination camp in our college, the NSS department created a Google form on 18th October 2021 to collect information about vaccinated and unvaccinated students and their families. NSS department organized vaccination camp on 30th October 2021 and 10th January 2022 with the help of Rural hospital. According to the data collected from google form, we called the students who has not been yet vaccinated and whoes 2nd dose was remaining. Most of the peoples were vaccinated in which some were students and some were other local peoples.
