About College:

Atul Vidya Mandir's Rajarshee Shahu Science College is affiliated to Sant Gadge Baba Amravati University, Amravati, is 100% grant-in-aid Science College in the Tehasil Chandur Railway. The College is running undergraduate Bachelor of Science Program and finds its foundation so well heeled with all basic infrastructure in such a short span. The college imparts education with a mission responding to the demands of time and needs of the society taking into consideration the socially backward and marginalized students in higher education.

The college has shown quantum jump in all dimensions like academic, co-curricular activities, infrastructure, conducive teaching-learning atmosphere, administration along with lush green campus and committed to grow better and better in future. Recently the college is accredited with B⁺⁺ Grade (CGPA 2.51) by NAAC, Bengaluru.

About College :

Vinayak Vidnayan Mahavidyalaya was established in the year 2007 by the Pravin Khodke Memorial Trust, Amravati with view to boosting higher education in the rural area. The college is affiliated to Sant Gadge Baba Amravati University, Amravati and recognized by Government of Maharashtra. Presently the college offers two UG courses i.e. Bachelor of Science with subject's Botany, Zoology, Chemistry, Mathematics, Computer Science, Electronics and Bachelor of Commerce.

At the initial stage, the strength of college was less but continuous increase in the number of students is an indicator of the college's potential of development. In future, the college can very well be developed as a major centre of higher education for socially and economically backward students of this region.

About City :

Chandur Railway is the station on Mumbai Howrah Central railway line. It is at a distance of 30 Km away from district place Amravati and 130 Km away from Nagpur. Chandur Railway is situated in the vicinity of most beautiful forest area Pohara(Bandi) where there is nature biodiversity spot at Malkhed Reserve Forest.

About Workshop:

In today's age of globalization and technological volatility, skill building is an important instrument to increase the efficacy and quality of labor for improved productivity and economic growth. India's education system is also focusing toward entrepreneurship with college curriculum including courses on skill development and marketing. Several government initiatives are focusing on harnessing and nurturing the scientific and innovative mindset of young people. In fact recent years various surveys outlined the importance of encouraging and creating globally skilled and competitive work force through education system. It is time now to scale up this approach in ignited minds and help them to start their own business. With this objective Rajarshee Shahu Science College and Vinayak Vidnayan Mahavidyalaya is organizing a three days' workshop on Nursery techniques and Management.

Nursery considered as a small entrepreneur activity. There has been increased demand for horticultural crops more particularly fruit and ornamental ones in both Urban and Rural areas of India. With this, the demand for good quality planting material has increased and hence the nursery business has developed rapidly in recent years in our country. So the selection of good planting materials and strict culling in Nursery are the important step. But in general good quality and assured planting material at reasonable cost is not available. So person having skills of propagation can go for this avenue as an agri-business of future. Nursery management is an important tool for the success of such entrepreneurship and will help nurserymen to run profitable business. The present workshop provides information for nursery establishment, propagation techniques, pest, diseases, and weed, water specific and nutrient management and economic. The students will also experience with practical knowledge of several techniques which helped in established commercial nursery and meet demand of agro-industry.

Objectives:

- To impart basic knowledge of Nursery and develop skills about propagating, tools, equipment and growing structures used in nursery for plant production.
- To provide information on establishment of commercial nursery unit.
- To inculcate entrepreneurial skills of commercialization of nursery production.
